# IC3

**Internet and Computing  
Core Certification**

IC3 is the ideal starting point for anyone—young or old—who wants to gain a working knowledge of computers and the Internet.

## World's First

IC<sup>3</sup> the world's first validated, standards-based training and certification program for basic computing and Internet knowledge and skills. IC<sup>3</sup> is your gateway to advancement in education and employment.

- \* Provides core skills and knowledge necessary to use some computer applications and the Internet
- \* Effectively tests computing knowledge and skills to ensure mastery is achieved
- \* Gives a resume-building standard certification as proof of successful completion of the program
- \* Provides the foundation necessary to further enhance productivity and marketability with other desktop application-specific certifications
- \* Gives individuals confidence and security in being part of today's "digital world"

**Leave no doubt that you can do the job.**

Jefferson Davis County Schools and PRCC are proud to offer this course to the community!

IC<sup>3</sup> is the ideal starting point for anyone interested in learning computer and Internet basics. The program gives individuals sufficient Internet and computing literacy skills to enter current job markets or begin higher education programs. Prime candidates for IC<sup>3</sup> certification are junior high school students, high school students, GED students, continuing education students, Job Corps participants, employees who use technology on the job, and anyone— young or old—who wants to gain a working knowledge of computers and the Internet.

Basic computer and Internet skills have become prerequisites for virtually every employment opportunity.
